

THE *Lillian M. Collection* GUIDE TO FINDING YOUR RING SIZE

Finding out your ring size couldn't be easier than with a ring-measurement tool. If you've booked a one-on-one consultation with Lillian M. Collection, our jewelry consultants will ensure you get your most accurate measurements.

However, if you are purchasing online and don't have a ring-measurement tool, there are still a few ways to ensure a perfect fit. Here's your guide on finding the exact size of your ring.

HOW IT WORKS

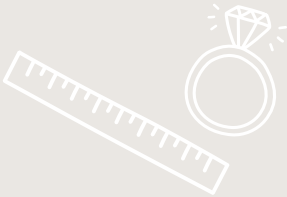

Step 1:

Find a string, a strip of paper or a thread, then wrap it snugly (but not too tight!) around the base of your ring.

Step 2:

Mark where the string overlaps with a pen. Unwrap and repeat the first two steps a couple more times to ensure accuracy.

Step 3:

Place the string along a ruler or measuring tape, and note the length in millimeters.
